Prayer Requests

Jeri Erman's brother John's latest MRI showed increased growth of the cancer in his lungs and liver by 15 -20% this week. He is scheduled for a brain MRI next week - please pray that it shows no growth. They will change his chemo to a more aggressive type starting with his next session (he gets a treatment every 3 weeks). John's oldest daughter is getting ready to go off to college this fall, prayers for all of them would be appreciated.

Also, Jeri's sister-in-law, Sandy, has been hospitalized with abscesses and is in pain. They do not know what is causing them. Please pray they can find what is causing this so they can treat her.
